

Vericatch's Canadian ELOG software

Compliance without Confusion

The Leader in Canadian Electronic Logbooks & Catch Reporting

We have been working with Canadian fishermen for more than a decade on electronic catch reporting. With a record of success, **Vericatch** will turn your reporting challenges into opportunities with our **ELOG** software.

Core Features

- DFO compliant
- Configurable to any fishery, vessel and gear type
- Report on your phone or tablet regardless of internet connection
- Collect & report fisheries catch & landing data
- Tie-in with VMS & other GPS systems

Additional Features

- Tie-in with our **FisheriesApp** analytics suite (sensitive species heatmapping, visual analytics, and more!)
- Data submission review & validation tools
- Fully Interoperable

Vericatch

Vericatch is a Canadian company founded in 2006. Our mission is to help fishermen report and use catch data to increase profits, and reach sustainability goals. Vericatch's team of fishermen and technologists uniquely positions us to increase your profits and keep you fishing.
